

Director: Nigel Pollard

Editor: Mary Crawford

Secretary: Tom Lemons

CIE 26th SESSION CONFERENCE AND DIVISION MEETINGS BEIJING, CHINA

4-11 July 2007

Our hosts are **The China national**

Committee of the CIE from which all information can be obtained from the web site:

www.cie2007.org.cn :

I hope by now most of you have booked your flights and are arranging your visas for our long awaited 26th Session in Beijing. It should be good Session with, as you will note, a great many papers on exterior lighting topics, many of which are from our host country.

We also have 5 TC's meeting the following week (see page 2) and it would be helpful if you would contact the TC Chair to confirm whether you will be able to attend.

The main Division 5 activities are as follows:

CIE2007

 13.30 **TC 5.23 – Guidelines for Illuminance**
- Wednesday 11 09.00 – 12.15 **D5 Meeting**

- **From the Director**

I am delighted to report that both Tom and Mary are both pleased to stay on as Secretary and Editor for the coming Quadrennium, but I have to be re-elected by you the membership, which should have happened at our last meeting in Athens!

If you want me, I am willing to stand and it would help if all official country members could Email your vote to the Secretary for me, or some other agreed nomination before the General Assembly Meeting in Beijing on the 4th July.

[It may also be worth noting for the future that if re-elected, a Director can only service two terms, so you will need to find a new Director by 2011]

- **News on TCs.**

- TC 5.18 Practical design guidelines for the lighting of exterior work areas
Chairman Kelvin Austin (UK) will be holding a meeting of this re-convened committee that now contains security lighting.

- TC 5.20 Sports Lighting
Chairman Tom Lemons (US) Eleventh draft to be worked on at Beijing meeting.
- TC 5.21 Urban Masterplanning
Chairwomen Mujgan Serefhanoglu (TU) is working on an edited version of Draft 7a in the hope that it will be the final one for discussion and agreement on in Beijing.
- TC 5-22 Beam Patterns for Exterior Floodlighting Luminaires
Chairman Scott Davies (US) will hold the second meeting of this committee in Beijing at which we can take on board the newly revised TM 15.07 document from the IESNA.
- TC 5.23 Guidelines for the use of different Illuminance parameters in Outdoor Applications
Chairman Patrick Rombauts (BE) will hold the second meeting of this new committee in Beijing.
